White / available for both logos

All SVG, PDF and EPS logo masters contain vector paths. Lettering is outlined, so the logos do not require installed fonts. Transparent PNG and WebP versions are also included.

Palette and placement

Use the same palette across the platform, the fund and investor materials.

Deep teal

#103D40 | RGB 16, 61, 64

Logo, titles and dark backgrounds

Burnished copper

#B9684F | RGB 185, 104, 79

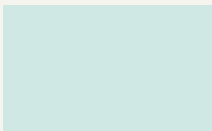

Door motif, rules and selected highlights

Lagoon

#2D8C88 | RGB 45, 140, 136

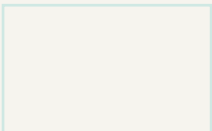

Primary charts and process diagrams

Mist

#CFE8E3 | RGB 207, 232, 227

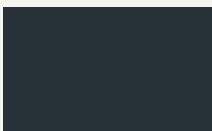

Table bands and supporting panels

Ivory

#F6F4EE | RGB 246, 244, 238

Main backgrounds and reversed text

Graphite

#273238 | RGB 39, 50, 56

Body text, tables and footnotes

Use in presentations

Keep most slides ivory. Use deep teal for covers and section dividers, graphite for body copy, and copper for emphasis. Use ivory lettering on deep teal backgrounds.

Size and clear space

Keep the supplied transparent margins. Suggested minimum display widths: 180 px for Dulcinea and 240 px for Dulcinea One. At smaller sizes, use the doorway symbol. Scale proportionally and preserve the fund identifier.

Master colors are defined in sRGB. Print PDF and EPS assets retain vector artwork; use the printer's requested color profile for final production.

Web assets and file choices

Ready for site headers, browser tabs, app shortcuts and social link previews.
